Subject: FW: New reasons prevent pages in a sitemap from being indexed on site siophavards.cymru

Further to my previous email, some pages are now not being indexed. Our SEO ranking is being reduced – I can no longer assist due to being locked out.

As in a previous email, the proper Google procedures needed to be followed.

Best wishes,
Brendan

New reason preventing your pages from being indexed

Search Console has identified that some pages on your site are not being indexed due to the following new reason:

Page with redirect

If this reason is not intentional, we recommend that you fix it in order to get affected pages indexed and appearing on Google.
